Harbourview Imaging Centre

Diagnostic imaging (fictional)

IMAGING REPORT

Patient	Alex Rowan (fictional)
Examination	Thyroid ultrasound
Examination date	10 Sep 2025
Referred by	Primary care clinic

FINDINGS

Thyroid ultrasound performed on 10 Sep 2025.

The thyroid gland is normal in size.

A well-defined 9 mm nodule is seen in the right lobe.

The left lobe appears unremarkable.

IMPRESSION

Small right thyroid nodule.

RECOMMENDATION

Follow-up ultrasound in 6 months is recommended.

Reported by the imaging centre.
