Harbourview Imaging Centre

Diagnostic imaging (fictional)

IMAGING REPORT

Patient	Laurence Mercer (fictional)
Examination	Thyroid ultrasound
Examination date	12 Mar 2026
Referred by	Primary care clinic

COMPARISON AND FINDINGS

Thyroid ultrasound of 12 Mar 2026 compared with the thyroid ultrasound of 10 Sep 2025.

The right lobe nodule measures 9 mm, unchanged in size compared with the previous examination.

No new nodules are seen.

IMPRESSION

Stable right thyroid nodule.

RECOMMENDATION

Follow-up ultrasound in 12 months is recommended.

Reported by the imaging centre.
